

# HORTICRAFT 50gsm CANOPY & STRUCTURAL DIAMOND BIRD NET

Covers & Crop Protection Solutions

#BN-

Hortcraft Canopy & Structural reinforced anti-bird net is available in bales of 100m long, in black or white, with a knitted diamond profile. Our Bird Net is designed specifically to protect crops from birds.

## Key Benefits & Features

- Made from strong HDPE yarn that won't rot or absorb moisture
- Nominal 15mm diamond mesh design deters small birds, whilst still allowing pollinating insect into the protected area
- Reinforced selvedge edges for extra strength that makes this fabric the most economical for attaching to a structure where permanent year-round protection is required
- A pro-rata UV warranty period of up to 10 years is provided
- 100% recyclable

## Material

Yarn	UV Stabilised HDPE
Construction	Monofilament Yarn
Pattern	Twin Lock Stitch Knitted
Temperature Range	-30°C to +/- 75°C

## Properties

Nominal Fabric Mass	50gsm +/- 2gsm
Mesh Size	15mm x 15mm

## Usage

- Can be used on small to medium permanent structures
- Ideal for draping over fruit trees
- Can be used on structure canopies and sides
- Contact with chemicals and/or pesticides that contain sulphur, halogens or highly acidic substances may reduce the service life of the bird net and may void the warranty\*

\*Condition report to be carried out by authorised Hortitech Enterprises representative, unless expressly permitted by Hortitech Enterprises.

## Attachment & Accessories

Hortcraft Canopy & Structural Reinforced Anti-bird Net can be attached to wires by either threading wire through the selvedge, sewing, lacing or Bird-Tex-Clips
